

Guidance for NAFCC-Accredited Early Learning and Development Program Standards with NAFCC Accreditation

Point Assignment April 8, 2012 — Amended September 1, 2014

The purpose of this document is to guide participants through the Standards Self-study process. The Guidance Document outlines the intention behind each standard and provides detailed guidance on the minimum requirements for each documentation submission. The rating reviewers will score submitted documentation against the Minimum Requirements column. In general, all components listed in this column must be readily apparent in the submission in order for the program to receive points for meeting the standard. Providers should only submit evidence that has been in use within the previous 15 months. ***Standards that have been crossed out are met automatically by NAFCC accredited providers for a total of up to **96** automatic points.
